

## **Giving way to progress**

A three storey, 20,000 sq. ft administration block will be constructed on the Devon St site of a 60 year old two storey house (above) in New Plymouth.

It was built in 1913 for a New Plymouth doctor.

Demolition work began last week and is expected to be completed by January 21.

The new building is to be part of an expansion programme by Newton King Ltd.
